

## ROGER STONE

Mr. President –

Events unfolding in the nation's capital, inflamed by the steady stream of truly alarming totalitarian rhetoric from Democrat politicians, are making abundantly clear what the Departments of Justice and Homeland Security have in store under a President Joe Biden and a Congress controlled by Biden's Democrat cohorts.

Any challenge to the results of the 2020 election, even those made pursuant to the United States Constitution, is now to be considered sedition. Any person who makes, or has made, such a challenge, to include members of Congress, is to be deemed a “domestic terrorist.”

Under sweeping anti-terrorism provisions passed under George W. Bush, many of which are patently antithetical to the spirit and letter of our Constitution, but which were nonetheless rushed into law under the consistently abused pretext of “national security,” federal law enforcement officials are empowered to conduct warrantless searches of all communications and, without probable cause, indefinitely detain and secretly interrogate any person targeted for investigation under these statutes.

Your supporters will be rounded up simply because they *dared* question the heist of the 2020 election because we both know you won a majority of the LEGAL votes cast big.

The agency which would serve as the instrument of this effort to target and, ultimately, destroy the lives of anyone who dares question the

validity of the 2020 elections will be the radical left wing Democrat controlled government of the District of Columbia.

Criminal charges brought by the D.C. government are actually prosecuted by the U.S. Attorney for the District of Columbia - in other words, the same office from which corrupt government attorneys conducted partisan-tainted criminal prosecutions against myself, Paul Manafort, General Michael Flynn and others singled out as targets of Robert Mueller's Special Counsel Russian collusion witch hunt.

Ensuring the success of any partisan persecution conducted by the D.C. U.S. Attorney's Office, such cases are heard in U.S. District Court for the District of Columbia. Out of all the Federal District Courts in America, this is easily the most biased, politically compromised venue of all, with more partisan zealots on the bench than all other venues combined.

But judicial bias is just the beginning, as this court routinely conducts cases tainted by stacked juries, arbitrary rulings hostile to any politically disfavored defendant, gross prosecutorial abuses, blatant conflicts of interest and a routine disregard for even the most egregious instances of juror misconduct, all of which inure to the detriment of any defendant pursued for political motives. I know about all of this this firsthand, probably better than anyone in America, except perhaps General Michael Flynn.

As if the DC District Court is not terrible enough as a judicial killing ground for anyone who dares cross the leftist Democrat power structure in Washington D.C. the D.C. Circuit Court of Appeals is a reliable rubber stamp for whatever partisan biases are inflicted below. Like the District Court, the federal Appeals Court in DC is the single most politicized and radical left-wing court of its type anywhere in the

country. It has an unparalleled, now-undisputed record of flouting both the Constitution and the law in its heavily politicized decisions.

No Trump supporter will ever be acquitted in the DC Court or Court of Appeals.

At risk of facing a rigged federal criminal prosecution in D.C. for daring challenge the 2020 election outcome are members of Congress like Matt Getz, Andy Biggs, Louie Gohmert, Jim Jordan, Mo Brooks, and Paul Gosar, as well as Senators Ted Cruz and Josh Hawley. Every House Republican should be pardoned except the 10 deserters.

The recent placement of elected members of Congress on a “no-fly” list, enforced by the TSA at every airport in America, is absolute proof that corrupt left-wing zealots in positions of authority intend to impede the travel of duly elected representatives of the people, despite their having been neither charged with nor convicted of any crime.

This coming new and far more extreme witch hunt, exploiting extraordinarily broad prosecutorial powers that effectively nullify all of the constitutional safeguards due to any citizen under the presumption of innocence, can only be stopped if the President issues pardons to all those individuals at risk.

The President’s constitutional pardon power is absolute and incontrovertible, capable of being used whether or not there has been a prosecution for the pardoned conduct. Further, it is a categorically false and unsupported claim that a U.S. citizen must be formally charged or convicted as a prerequisite for executive clemency such as a pardon.

The Ford Pardon of former President Richard M. Nixon has demonstrated, without any successful challenge in any court, that the president has the sole authority to pardon any individual "for crimes he committed or may have committed", which is precisely the language that must be used by White House lawyers in a series of pardons that are now imperative to protect a broad swath of Americans who had the audacity to support Donald Trump for president.

Mr. President, if your lawyers tell you the paperwork cannot be done on time that's not true. Each pardon is one sentence long, ala Nixon.

The radical, lawless American left is now scheming to inflict, in a grotesque subversion of our Constitution, the rule of law, and justice itself.

I also think you should continue your established precedent of pardoning some important Americans posthumously as you did with the boxer Jack Johnson. I would pardon the first Black Secret Service Agent, Abraham Bolden, who was framed for refusing to change his testimony in the Kennedy assassination investigation. I have long advocated a pardon for Marcus Garvey the early civil rights leader who was railroaded by the FBI.

I would also advocate a pardon for Demetrious Flenory, known as "Big Meech." Every Black person in America knows "Big Mech" and that he is being screwed by some Dirty Cops. Once a Mafia gang leader and convicted only of financial crimes Flenory is a born-again Christian who languishes in prison while everyone else convicted of the same crime in the same case and who got the exact same sentence in prison has been released. In prison, "Big Mech" sold his life-rights to rapper producer 50 Cent for \$5000 who then sold them to Star TV for \$30 million, Fifty Cent

retracted his endorsement of you - the prick. You will be a hero in Black America.

You could also pardon both me and Bernie Kerik in case they want to designate us "domestic terrorists" because we both said they stole the election since we were both pardoned us.

It is time, Mr. President you to use for to you use his Constitutional authority to protect the America First movement from the diabolical, underhanded lawfare assault that the radical lawless American left is now scheming to inflict, in a grotesque subversion of our Constitution, the rule of law, and justice itself on your supporters.

I think you again for saving my life and Nydia sends her love.
